The Greatest Cult Television Shows of All Time Christopher J. Olson, CarrieLynn D. Reinhard, 2020-05-29 Reaching back to the beginnings of television *The Greatest Cult Television Shows* offers readers a fun and accessible look at the 100 most significant cult television series of all time compiled in a single resource that includes valuable information on the shows and their creators While they generally lack mainstream appeal cult television shows develop devout followings over time and exert some sort of impact on a given community society culture or even media industry Cult television shows have been around since at least the 1960s with *Star Trek* perhaps the most famous of that era However the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s and now with the plethora of streaming options available more shows can be added to this categorization Reaching back to the beginnings of television the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner* alongside more contemporary examples like *Crazy Ex Girlfriend* and *Hannibal* The authors provide production history for each series and discuss their relevance to global pop culture To provide a more global approach to the topic the authors also consider several non American cult TV series including British Canadian and Japanese shows Thus *Monty Python's Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High* Additionally to move beyond the conception of cult as a primarily white heteronormative fanboy obsession the book contains shows that speak to a variety of cult audiences and experiences such as *Queer as Folk* and *Charmed* With detailed arguments for why these shows deserve to be considered the greatest of all time Olson and Reinhard provide ideas for discussion and debate on cult television Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them

The Space Opera Renaissance David G. Hartwell, Kathryn Cramer, 2007-07-10 The best ever anthology of one of science fiction's most vigorous subgenres **The Cambridge History of Science Fiction** Gerry Canavan, Eric Carl Link, 2019-01-03 The first science fiction course in the American academy was held in the early 1950s In the sixty years since science fiction has become a recognized and established literary genre with a significant and growing body of scholarship *The Cambridge History of Science Fiction* is a landmark volume as the first authoritative history of the genre Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past Science fiction as a literary genre is the central focus of the volume but fundamental to its story is its non literary cultural manifestations and influence Coverage thus includes transmedia manifestations as an integral part of the genre's history including not only short stories and novels but also film art architecture music comics and interactive media *To Boldly Stay* Sherry Ginn, Michael G. Cornelius, 2022-05-04 Despite the fact that *Star Trek Deep Space Nine* ended over twenty five years ago there has yet to be a stand alone assessment of the series This collection corrects that omission examining what

made Deep Space Nine so unique within the Star Trek universe and how that uniqueness paved the way for an altogether new entirely different vision for Star Trek If the Star Trek slogan has always been to boldly go where no one has gone before then Deep Space Nine helped to bring in a new renaissance of serialized television that has become normal practice Furthermore Deep Space Nine ushered in critical discussions on race gender and faith for the franchise science fiction television and American lives It relished in a vast cast of supporting characters that allowed for the investigation of psychosocial relationships from familial issues to interpersonal and interspecies conflict to regional strife that the previous Star Trek series largely overlooked Essays explore how Deep Space Nine became the most richly complicated sci fi series in the entire Star Trek pantheon **The Year's Best Science Fiction** ,2001 **Space and Beyond** Gary Westfahl,2000-01-30 Although the exploration of space has long preoccupied authors and filmmakers the development of an actual space program discoveries about the true nature of space and critical reconsiderations of America's frontier experiences have challenged and complicated conventional portrayals of humans in space This volume reexamines the themes of space and the frontier in science fiction in light of recent scientific and literary developments From this new perspective we discern previously unnoticed commentaries from older authors while newer writers either remain within a reassuring but obsolete tradition venture into unexplored new realities or abandon space to focus on other frontiers The intriguing contributions to this volume include a previously unpublished interview with Arthur C Clarke the world's greatest living author of science fiction examinations of space opera by veteran author Jack Williamson and scholar David Pringle surveys of space in science fiction film and writer and producer Michael Cassutt's account of his efforts to launch a film based on a Clifford D Simak novel and speculations about future developments from noted writers Gregory Benford Jack Dann James Gunn and Howard V Hendrix *Top of the News* ,1982 **Startling Stories** ,1953 **The Heating and Ventilating Magazine** ,1922 **Air Conditioning, Heating and Ventilating** ,1923 Science Fiction Voices #5 Darrell Schweitzer,1981 **New Eves** Janrae Frank,Jean Marie Stine,Forrest J. Ackerman,1994 An extraordinary anthology of science fiction stories written by women about women These stories have not appeared as part of a novel nor have they appeared in print in any anthology within the last 15 years Stories range from the 1920s to the present Includes virtually every female science fiction writer *The Library Journal* ,1998-07 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **The Publishers Weekly** ,2009 **On the Good Ship Enterprise** Bjo Trimble,1983 *Fantasy Newsletter* ,1983 American Electrician ,1904 *Amazing Science Fiction* ,1977-10 *American Science Fiction Television Series of the 1950s* Patrick Lucanio,Gary Coville,1998 As Americans grappled with the real problems of the atomic age in the 1950s the science fiction television series provided escapist fare At first essentially fantasy and adventure the shows reflected the progress of the decade using in the late 1950s extrapolations from the theories and findings of true science From Adventures

of Superman to World of Giants this reference work covers all science fiction television series of the 1950s A lengthy essay details character development technical innovations critical commentary and other matters The episode guides that follow first provide primary cast and production credits for the entire season and then coverage of each individual episode with title airdate writer director and a plot synopsis Much of the information was derived from actual viewing and many errors from other works are corrected here **The Official Xbox Magazine** ,2007
