Monteleone, 2004-09-01 *Out of his mind* Amy Milne-Smith, 2022-04-26 Out of His Mind interrogates how Victorians made sense of the madman as both a social reality and a cultural representation Even at the height of enthusiasm for the curative powers of nineteenth century psychiatry to be certified as a lunatic meant a loss of one's freedom and in many ways one's identity Because men had the

most power and authority in Victorian Britain this also meant they had the most to lose The madman was often a marginal figure confined in private homes hospitals and asylums Yet as a cultural phenomenon he loomed large tapping into broader social anxieties about respectability masculine self control and fears of degeneration Using a wealth of case notes press accounts literature medical and government reports this text provides a rich window into public understandings and personal experiences of men s insanity

**Fanon, i ek, and the Violence of Resistance** Zahi Zalloua, 2025-06-26 In a novel pairing of anti colonial theorist Frantz Fanon with Marxist Lacanian philosopher Slavoj i ek Zahi Zalloua explores the ways both thinkers expose the violence of political structures This inventive exploration advances an anti racist critique describing how ontology operates in a racial matrix to produce some human bodies that count and others deemed not quite or non human that do not For Fanon and i ek the violence of ontology must be met with another form of violence a revolutionary violence that delegitimizes the logic of the symbolic order and troubles its collective fantasies Whereas Fanon begins his challenge to ontology by exposing its historical linkages to Europe s destructive imperialist procedures before proceeding to stretch Marxism along with psychoanalysis to account for the crushing neo colonial situation i ek premises his work on the refusal to accept the totality of ontology Because of these different points of intervention Fanon and i ek together offer a powerful and multifaceted assessment of the liberal anti racist paradigm whose propensity for identity politics and aversion to class struggle silence the cry of the dispossessed and foreclose radical change Avoiding contemporary separatist temptations decoloniality and Afropessimism and breaking with a non violent sentimentalist futurology that announces more of the same Fanon and i ek point in a different direction one that eschews identitarian thought in favor of a collective struggle for freedom and equality

**Karaoke Fascism** Monique Skidmore, 2012-02-24 To come to Burma one of the few places where despotism still dominates is to take both a physical and an emotional journey and like most Burmese to become caught up in the daily management of fear Based on Monique Skidmore s experiences living in the capital city of Rangoon Karaoke Fascism is the first ethnography of fear in Burma and provides a sobering look at the psychological strategies employed by the Burmese people in order to survive under a military dictatorship that seeks to invade and dominate every aspect of life Skidmore looks at the psychology and politics of fear under the SLORC and SPDC regimes Encompassing the period of antijunta student street protests her work describes a project of authoritarian modernity where Burmese people are conscripted as army porters and must attend mass rallies chant slogans construct roads and engage in other forms of forced labor In a harrowing portrayal of life deep within an authoritarian state recovering heroin addicts psychiatric patients girl prostitutes and poor and vulnerable women in forcibly relocated townships speak about fear hope and their ongoing resistance to four decades of oppression Karaoke fascism is a term the author uses to describe the layers of conformity that Burmese people present to each other and more important to the military regime This complex veneer rests on resistance collaboration and complicity and describes not only the Burmese form of oppression but also the Burmese response to a life

of domination Providing an inside look at the madness and the militarization of the city Skidmore argues that the weight of fear the anxiety of constant vulnerability and the numbing demands of the State upon individuals force Burmese people to cast themselves as automata they deliberately present lifeless hollow bodies for the State's use while their minds reach out into the cosmos for an array of alternate realities Skidmore raises ethical and methodological questions about conducting research on fear when doing so evokes the very emotion in question in both researcher and informant
