Contemporary American Cinema Linda Williams, Michael Hammond, 2006-05-16 One of the rare collections I would recommend for use in undergraduate teaching the chapters are lucid without being oversimplified and the contributors are adept at analyzing the key industrial technological and ideological features of contemporary U S cinema Diane Negra University of East Anglia UK *Contemporary American Cinema* offers a fresh and sometimes revisionist look at developments in the American film industry from the 1960s to the present Readers will find it lively and provocative Chuck Maland University of Tennessee USA *Contemporary American Cinema* is the book on the subject that undergraduate classes have been waiting for Comprehensive detailed and intelligently organized and written in accessible and compelling prose *Contemporary American Cinema* will be embraced by instructors and students alike Charlie Keil Director Cinema Studies Program University of Toronto Canada *Contemporary American Cinema* usefully gathers together a range of materials that provide a valuable resource for students and scholars It is also a pleasure to read Hilary Radner University of Otago New Zealand *Contemporary American Cinema* deepens our knowledge of American cinema since the 1960s This is an important collection that will be widely used in university classrooms Lee Grieveson University College London UK *Contemporary American Cinema* is a clear sighted and tremendously readable anthology mapping the terrain of post sixties US cinema with breadth and critical verve Paul Grainge University of Nottingham UK This collection of freshly written essays by leading specialists in the field will most likely be one of the most important works of reference for students and film scholars for years to come Liv Hausken University of Oslo Norway *Contemporary American Cinema* is the first comprehensive introduction to American cinema since 1960 The book is unique in its treatment of both Hollywood alternative and non mainstream cinema Critical essays from leading film scholars are supplemented by boxed profiles of key directors producers and actors key films and key genres and statistics from the cinema industry Illustrated in colour and black and white with film stills posters and production images the book has two tables of contents allowing students to use the book

chronologically decade by decade or thematically by subject Designed especially for courses in cinema studies and film studies cultural studies and American studies Contemporary American Cinema features a glossary of key terms fully referenced resources and suggestions for further reading questions for class discussion and a comprehensive filmography Individual chapters include The decline of the studio system The rise of American new wave cinema The history of the blockbuster The parallel histories of independent and underground film Black cinema from blaxploitation to the 1990s Changing audiences The effects of new technology Comprehensive overview of US documentary from 1960 to the present Contributors include Stephen Prince Steve Neale Susan Jeffords Yvonne Tasker Barbara Klinger Jim Hillier Peter Kramer Mark Shiel Sheldon Hall Eithne Quinn Michele Aaron Jonathan Munby *Philippine Cinema and the Cultural Economy of Distribution* Michael Kho Lim, 2018-12-18 This book explores the complex interplay of culture and economics in the context of Philippine cinema It delves into the tension interaction and shifting movements between mainstream and independent filmmaking examines the film distribution and exhibition systems and investigates how existing business practices affect the sustainability of the independent sector This book addresses the lack or absence of Asian representation in film distribution literature by supplying the much needed Asian context and case study It also advances the discourse of film distribution economy by expounding on the formal and semi formal film distribution practices in a developing Asian country like the Philippines where the thriving piracy culture is considered as normal and which is commonly depicted and discussed in existing literature As such this will be the first book that looks into the specifics of the Philippine film distribution and exhibition system and provides a historical grounding of its practices Film Censorship Sheri Chinen Biesen, 2018-08-28 Film Censorship is a concise overview of Hollywood censorship and efforts to regulate American films It provides a lean introductory survey of U S cinema censorship from the pre Code years and classic studio system Golden Age in which film censorship thrived to contemporary Hollywood From the earliest days of cinema movies faced controversy over screen images and threats of censorship This volume draws extensively on primary research from motion picture archives to unveil the fascinating behind the scenes history of cinema censorship and explore how Hollywood responded to censorial constraints on screen content in a changing American cultural and industrial landscape This primer on American film censorship considers the historical evolution of motion picture censorship in the United States spanning the Jazz Age Prohibition era lobbying by religious groups against Hollywood industry self censorship for the Hays Office federal propaganda efforts during wartime easing of regulation in the 1950s and 1960s the MPAA ratings system and the legacy of censorship in later years Case studies include The Outlaw The Postman Always Rings Twice Scarface Double Indemnity Psycho Bonnie and Clyde Midnight Cowboy and The Exorcist among many others **Modernist America** Richard Pells, 2011-03-29 America s global cultural impact is largely seen as one sided with critics claiming that it has undermined other countries languages and traditions But contrary to popular belief the cultural relationship between the United States

and the world has been reciprocal says Richard Pells The United States not only plays a large role in shaping international entertainment and tastes it is also a consumer of foreign intellectual and artistic influences Pells reveals how the American artists novelists composers jazz musicians and filmmakers who were part of the Modernist movement were greatly influenced by outside ideas and techniques People across the globe found familiarities in American entertainment resulting in a universal culture that has dominated the twentieth and twenty first centuries and fulfilled the aim of the Modernist movement to make the modern world seem more intelligible Modernist America brilliantly explains why George Gershwin's music Cole Porter's lyrics Jackson Pollock's paintings Bob Fosse's choreography Marlon Brando's acting and Orson Welles's storytelling were so influential and why these and other artists and entertainers simultaneously represent both an American and a modern global culture

Law and Creativity in the Age of the Entertainment Franchise Kathy Bowrey, Michael Handler, 2014-11-13 Much of the real value in the entertainment industry today lies in franchises fictional universes entertainment concepts reinventions of cultural traditions and celebrity that create an ongoing presence in the marketplace The entertainment franchise now shapes the global cultural landscape However scholars have devoted little attention to how intellectual property law has changed or is being stretched in practice to accommodate this type of creativity and form of enterprise Covering law and practice in jurisdictions such as the UK the EU the USA Australia Spain and the Caribbean this collection explores the fit of intellectual property laws with specific franchises and tracks the way creators and entrepreneurs work around law's limitations Case studies include mega film franchises fan activity hip hop the management of celebrity reputation flamenco Disneyfied theatre film and television funding arts festivals and carnival in a box
