## **Fuelling The Empire South Africa's Gold And The Road To War:**

**Fuelling the Empire** John J. Stephens, 2003-06-13 What makes a country go to war At what stage in that sequence of events of action and reaction bluff and brinkmanship does war become unavoidable The South African War was the first large scale human tragedy of the twentieth century the prelude to a century that was to be characterised by such large scale and avoidable tragedy The cost in human environmental and financial terms was colossal Approximately 60 000 men women and children were killed from countries that not only included Britain and South Africa but also France the USA Australia New Zealand and Canada Moreover the peace terms that allowed for the continuation of discriminatory racial policies set the stage for a century of racial inequality and strife in South Africa In this incisive work South African author John Stephens considers the slide to a war that nobody wanted This is a story of the shaping of South Africa It is also a universal story one of pride greed and fear of humans behaving in a very human way

**Gold, Finance and Imperialism in South Africa, 1887-1902** Mariusz Lukasiewicz, 2024-03-19 This book provides a unique account of the financial and political history of the South African War by analysing the organisation and operations of the Johannesburg Stock Exchange JSE the oldest existing stock exchange in the African continent Identifying the JSE as the nexus between international finance South African gold mining and British imperialism the book exposes the financial and political connections between Johannesburg Pretoria London and Paris during the final stage of the imperial scramble for southern Africa Gold mining presented the South African Republic ZAR and the whole southern African regional economy with a long term economic future and new prospects of industrialisation However this socio economic transformation was dependent on extensive capital investments and the institutionalisation of a coercive labour regime based on racial discrimination This monograph provides the first empirical examination of how international finance imperial politics and racialised industrial relations became entrenched in a key financial intermediary in colonial South Africa first in Kimberley in the Cape Colony and then in Johannesburg in the ZAR By studying the Johannesburg capital market's social microstructures the author demonstrates how colonial and international financial intermediaries underwrote and financed the largest wave of mining investments in Africa prior to the First World War Filling an important gap in literature on nineteenth century British imperialism and Anglo African Afrikaner relations this insightful book uses the JSE as a lens to carefully expose the structures and agency of global finance in the outbreak of the South African War and the making of South Africa as a unified colonial state

**The Boer War** Martin Bossenbroek, 2018-01-30 The Anglo Boer War 1899 1902 is one of the most intriguing conflicts of modern history It has been labeled many things the first media war a precursor of the First and Second World Wars the originator of apartheid The difference in status and resources between the superpower Great Britain and two insignificant Boer republics in southern Africa was enormous But against all expectation it took the British every effort and a huge sum of money to win the war not least by unleashing a campaign of systematic terror against the civilian population In The Boer War winner of the Netherland

s 2013 Libris History Prize and shortlisted for the 2013 AKO Literature Prize the author brings a completely new perspective to this chapter of South African history critically examining the involvement of the Netherlands in the war Furthermore unlike other accounts Martin Bossenbroek explores the war primarily through the experiences of three men uniquely active during the bloody conflict They are Willem Leyds the Dutch lawyer who was to become South African Republic state secretary and eventual European envoy Winston Churchill then a British war reporter and Deneys Reitz a young Boer commando The vivid and engaging experiences of these three men enable a more personal and nuanced story of the war to be told and at the same time offer a fresh approach to a conflict that shaped the nation state of South Africa

Economic Interdependence and War Dale C. Copeland, 2014-11-02 Does growing economic interdependence among great powers increase or decrease the chance of conflict and war Liberals argue that the benefits of trade give states an incentive to stay peaceful Realists contend that trade compels states to struggle for vital raw materials and markets Moving beyond the stale liberal realist debate Economic Interdependence and War lays out a dynamic theory of expectations that shows under what specific conditions interstate commerce will reduce or heighten the risk of conflict between nations Taking a broad look at cases spanning two centuries from the Napoleonic and Crimean wars to the more recent Cold War crises Dale Copeland demonstrates that when leaders have positive expectations of the future trade environment they want to remain at peace in order to secure the economic benefits that enhance long term power When however these expectations turn negative leaders are likely to fear a loss of access to raw materials and markets giving them more incentive to initiate crises to protect their commercial interests The theory of trade expectations holds important implications for the understanding of Sino American relations since 1985 and for the direction these relations will likely take over the next two decades Economic Interdependence and War offers sweeping new insights into historical and contemporary global politics and the actual nature of democratic versus economic peace

*Prisoners of War and Military Honour, 1789-1918* Jasper Heinzen, 2025-01-03 Early in the modern period prisoners of war with the rank of officer or equivalent had the right to petition for parole By effectively pawning their personal honour they were able to purchase freedom of movement and other privileges in captivity Increasingly other ranks and civilians claimed a right to parole too Based on material from close to thirty Australian British Dutch French German and Swiss archives Jasper Heinzen investigates the role and implications of honour based agreements between prisoners of war and their captors in western European warfare Across a range of ego documents ministerial memoranda the minutes of Masonic lodges and prisoners petitions as well as a substantial body of published material he demonstrates how captives statesmen and humanitarians understood honour in the long nineteenth century how they negotiated national differences and why parole d'honneur continued to matter as a code of conduct into the First World War In so doing the book demonstrates the dichotomy between good codes of conduct prevalent in the eighteenth century and the practices of modern warfare perpetuated by a substantial amount of scholarship to be a false one Explaining the longevity of

parole in this novel way raises important questions about the so called military Enlightenment the excesses of the world wars total war and the practices and codes of modern warfare *White Stones and Little Crosses* Ronnie Hammond,2012-02-27

An account of the making of South Africa as we know it **Historical Dictionary of the Anglo-Boer War** Fransjohan Pretorius,2009 The devastating war that raged on the South African veldt between 1899 and 1902 the first of the 20th century wars was small in comparison with the world wars Yet it reveals many facets of military political and social issues The conflict between the British Empire and the Boer settlers was in ways a precursor to what was to come It saw vast changes in the organization tactics and weapons used by the British Army had far reaching effects on the white political structure in the country and stimulated Afrikaner nationalism which might partly explain the introduction of apartheid
