

# WARNING LIGHTS AND MESSAGES

## WARNING LIGHTS AND MESSAGES

### GENERAL WARNINGS

Warning lights are accompanied by a specific message and/or sound when applicable. These indications are brief and precautionary and as such must not be considered as exhaustive and/or alternative to the information contained in the Owner's Handbook, which you are recommended to read carefully in all cases. Always refer to the information in this chapter in the event of a failure indication.

**IMPORTANT** The fault indicators appearing on the display are divided into two categories: very serious and less serious failures.

Serious failures prompt a prolonged cycle of signals.

Less serious failures prompt a shorter cycle of signals.

Press MENU ESC to stop the warning cycle in both cases. Warning lights on the instrument panel will stay on until the cause of the failure is eliminated.

For messages relevant to the versions equipped with a Dualogic gearbox, see the attached Supplement.

### **BRAKE FLUID LOW (red) HANDBRAKE ENGAGED (red)**

When the ignition key is moved to MAR position, the warning light turns on but should go off after a few seconds.

#### **Brake fluid low**

The warning light turns on when the level of the brake fluid in the reservoir falls below the minimum level, possibly due to a leak in the circuit.

On some versions the display shows the associated message.

#### **WARNING**

*If the warning light  turns on when travelling (on certain versions together with the message on the display) stop the car immediately and contact a Fiat Dealership.*

#### **Handbrake engaged**

The warning light turns on when the handbrake is on.

If the car is moving, an audible warning will also sound on certain versions.

**IMPORTANT** If the warning light turns on when travelling, check that the handbrake is not engaged.
