Fictions Of Embassy Literature And Diplomacy In Early Modern Europe:

Fictions of Embassy Timothy Hampton, 2011-03-15 Historians of early modern Europe have long stressed how new practices of diplomacy that emerged during the period transformed European politics *Fictions of Embassy* is the first book to examine the cultural implications of the rise of modern diplomacy Ranging across two and a half centuries and half a dozen languages Timothy Hampton opens a new perspective on the intersection of literature and politics at the dawn of modernity Hampton argues that literary texts tragedies epics essays use scenes of diplomatic negotiation to explore the relationship between politics and aesthetics between the world of political rhetoric and the dynamics of literary form The diplomatic encounter is a scene of cultural exchange and linguistic negotiation Literary depictions of diplomacy offer occasions for reflection on the definition of genre on the power of representation on the limits of rhetoric on the nature of fiction making itself Conversely discussions of diplomacy by jurists political philosophers and ambassadors deploy the tools of literary tradition to articulate new theories of political action Hampton addresses these topics through a discussion of the major diplomatic writers between 1450 and 1700 Machiavelli Grotius Gentili Guicciardini and through detailed readings of literary works that address the same topics works by Shakespeare More Rabelais Montaigne Tasso Corneille Racine and Camoens He demonstrates that the issues raised by diplomatic theorists helped shape the emergence of new literary forms and that literature provides a lens through which we can learn to read the languages of diplomacy *Europe in British Literature and Culture* Petra Rau, William T. Rossiter, 2024-06-13

How has Europe shaped British literature and culture and vice versa since the Middle Ages This volume offers nuanced answers to this question From the High Renaissance to haute cuisine from the Republic of Letters to the European Union from the Black Death to Brexit the reader gains insights into the main geographical zones of influence shared intellectual movements indicative modes of cultural transfer and more recent conflicts that have left their mark on the British European relationship The story that emerges from this long history of cultural interactions is much more complex than its most recent political episode might suggest This volume offers indispensable contexts to the manifold and longstanding connections between British and European literature and culture This book suggests that however the political landscape develops we will do well to bear this exceptionally rich history in mind

Montaigne and the Tolerance of Politics Douglas I. Thompson, 2018 Toleration is one of the most studied concepts in contemporary political theory and philosophy yet the range of contemporary normative prescriptions concerning how to do toleration or how to be tolerant is remarkably narrow and limited Contemporary thinking about toleration evinces paradoxically an intolerance of politics This book argues for toleration as a practice of negotiation looking to a philosopher not usually considered political Michel de Montaigne For Montaigne toleration is an expansive active practice of political endurance in negotiating public goods across lines of value difference In other words to be tolerant means to possess a particular set of political capacities for negotiation Douglas Thompson draws on Montaigne's *Essais* to recover the idea that

political negotiation grows out of genuine care for public goods and the establishment of political trust Thompson argues that we need a Montaignian conception of toleration today if we are to negotiate effectively the circumstances of increasing political polarization and ongoing value conflict and he applies this notion to current debates in political theory as well to contemporary issues including the problem of migration and refugee asylum Additionally for Montaigne scholars he reads the *Essais* principally as a work of public political education and resituates the work as an extension of Montaigne's political activity as a high level negotiator between Catholic and Huguenot parties during the French Wars of Religion

The Politics of Immunity Mark Neocleous, 2022-04-05 The violence and destruction hiding behind the obsession with immunity Our contemporary political condition is obsessed with immunity The immunity of bodies and the body politic personal immunity and herd immunity how to immunize the social system against breakdown The obsession intensifies with every new crisis and the mobilization of yet more powers of war and police from quarantine to border closures and from vaccination certificates to immunological surveillance Engaging four key concepts with enormous cultural weight Cell Self System and Sovereignty Politics of Immunity moves from philosophical biology to intellectual history and from critical theory to psychoanalysis to expose the politics underpinning the way immunity is imagined At the heart of this imagination is the way security has come to dominate the whole realm of human experience From biological cell to political subject and from physiological system to the social body immunity folds into security just as security folds into immunity The book thus opens into a critique of the violence of security and spells out immunity's tendency towards self destruction and death immunity like security can turn its aggression inwards into the autoimmune disorder Wide ranging and polemical Politics of Immunity lays down a major challenge to the ways in which the immunity of the self and the social are imagined

Tudor Networks of Power Ruth Ahnert, Sebastian E. Ahnert, 2024-02-16 Tudor Networks of Power is the product of a groundbreaking collaboration between an early modern book historian and a physicist specializing in complex networks Together they have reconstructed and computationally analysed the networks of intelligence diplomacy and political influence across a century of Tudor history 1509-1603 based on the British State Papers The 130 000 letters that survive in the State Papers from the Tudor period provide crucial information about the textual organization of the social network centred on the Tudor government Whole libraries have been written using this archive but until now nobody has had access to the macroscopic tools that allow us to ask questions such as What are the reasons for the structure of the Tudor government's intelligence network What was its geographical reach and coverage Can we use network data to show patterns of surveillance What role did women play in these government networks And what biases are there in the data The authors employ methods from the field of network science translating key concepts and approaches into a language accessible to literary scholars and historians and illustrating them with examples drawn from this fantastically rich archive Each chapter is the product of a set of thematically organized experiments which show how particular methods can help to ask and answer research questions

specific to the State Papers archive but also have applications for other large bodies of humanities data The fundamental aim of this book therefore is not merely to provide an innovative perspective on Tudor politics it also aspires to introduce an entirely new audience to the methods and applications of network science and to suggest the suitability of these methods for a range of humanistic inquiry *Yale French Studies*, 1948 **Publications of the Modern Language Association of America**, 2009 **Memoirs of the American Academy in Rome** American Academy in Rome, 2014 *Yale French Studies*, Number 124 Hall Bjørnstad, Katherine Ibbett, 2013 In the summer of 1927 Walter Benjamin wrote about a possible future project on what he called French Trauerspiel or mourning drama In this volume of *Yale French Studies* an international team of leading scholars of early modern Europe takes its cue from that lapsed project to reread the seventeenth century French tragic canon as Trauerspiel These new readings draw attention to early modern French theater's reflections on chance and contingency political compromise the question of allegory the philosophy of the provisional the place of sound and the status of the creaturely *Studies and Texts*, 1955 **2010 [catalog]** Degruyter, 2010-12-16 Reviews are an important aspect of scholarly discussion because they help filter out which works are relevant in the yearly flood of publications and are thus influential in determining how a work is received The IBR published again since 1971 as an interdisciplinary international bibliography of reviews it is a unique source of bibliographical information The database contains entries on over 1 2 million book reviews of literature dealing primarily with the humanities and social sciences published in 6 820 mainly European scholarly journals Reviews of more than 560 000 scholarly works are listed The database increases every year by 60 000 entries Every entry contains the following information On the work reviewed author title On the review reviewer periodical year edition page ISSN language subject area in German English Italian Publisher address of journal **The British National Bibliography** Arthur James Wells, 2009 *Embajadores culturales* Diana Carrió-Invernizzi, 2016 Este libro explora la pluralidad de agentes embajadores oficiales o informales y también sus intermediarios como artistas o viajeros que fomentaron el intercambio y la circulación de conocimientos culturales y artísticos a través de las redes diplomáticas hispanas de la Edad Moderna Estas transferencias culturales entre los principales ámbitos del poder pero también entre los espacios grises de una monarquía política como la española fueron alimentadas por embajadores con agendas de intereses complejas y con lealtades múltiples Intercambiaron cartas o regalos y coleccionaron artefactos tanto visuales como textuales con los que se vieron envueltos en procesos de hibridación o aculturación en los lugares donde fueron destinados **Diplomacia y comercio en la Europa atlántica medieval** Jesús Ángel Solórzano Telechea, Beatriz Arízaga Bolumburu, Louis Sicking, 2015 *Politische Kommunikation zwischen Imperien* Gunda Barth-Scalmani, 2013 **Discours lettré et transformations sociopolitiques au début du XVI^e siècle** Laurent Cantagrel, 2012 Les lettrés du début du XVI^e siècle cherchent modifier la réalité sociale de leur temps en laborant dans leurs œuvres des descriptions de sociétés originales d'intention pragmatique pour lesquelles ils s'efforcent d'obtenir l'approbation
