Fieldwork In Familiar Places Morality Culture And Philosophy:

Fieldwork in Familiar Places Michele M. Moody-Adams, 2009-06-01 The persistence of deep moral disagreements across cultures as well as within them has created widespread skepticism about the objectivity of morality Moral relativism moral pessimism and the denigration of ethics in comparison with science are the results Fieldwork in Familiar Places challenges the misconceptions about morality culture and objectivity that support these skepticisms to show that we can take moral disagreement seriously and yet retain our aspirations for moral objectivity Michele Moody Adams critically scrutinizes the anthropological evidence commonly used to support moral relativism Drawing on extensive knowledge of the relevant anthropological literature she dismantles the mystical conceptions of culture that underwrite relativism She demonstrates that cultures are not hermetically sealed from each other but are rather the product of eclectic mixtures and borrowings rich with contradictions and possibilities for change The internal complexity of cultures is not only crucial for cultural survival but will always thwart relativist efforts to confine moral judgments to a single culture Fieldwork in Familiar Places will forever change the way we think about relativism anthropologists psychologists historians and philosophers alike will be forced to reconsider many of their theoretical presuppositions Moody Adams also challenges the notion that ethics is methodologically deficient because it does not meet standards set by natural science She contends that ethics is an interpretive enterprise not a failed naturalistic one genuine ethical inquiry including philosophical ethics is a species of interpretive ethnography We have reason for moral optimism Moody Adams argues Even the most serious moral disagreements take place against a background of moral agreement and thus genuine ethical inquiry will be fieldwork in familiar places Philosophers can contribute to this enterprise she believes if they return to a Socratic conception of themselves as members of a rich and complex community of moral inquirers

Fieldwork in Familiar Places Michele M. Moody-Adams, 2002-05-01 The persistence of deep moral disagreements has created widespread skepticism about the objectivity of morality Moral relativism moral pessimism and the denigration of ethics in comparison with science are the results Michele Moody Adams scrutinizes the anthropological evidence commonly used to support moral relativism and finds that the internal complexity of cultures will always thwart efforts to confine moral judgments to a single culture

Ethical Inquiries after Wittgenstein Salla Aldrin Salskov, Ondřej Beran, Nora Hämäläinen, 2022-05-18 This volume showcases contemporary ground up ethical essays in the tradition of Wittgenstein s broader philosophy and Wittgenstein inspired ethical reflection It takes the ethical relevance of Wittgenstein as a substantial and solid starting point for a broad range of ongoing thinking about contemporary ethical issues The texts are organised in two sections The first consists of chapters exploring questions around what could be called the grammar of our moral forms of life and thus represents a more traditional approach in ethics after Wittgenstein The second part represents a recent turn in the tradition towards investigating moral conceptions perspectives and concepts that are undergoing change either because the world itself is changing for instance with new technologies or because human

agency such as social movements has brought us to reconsider previously unquestioned ideas and structures Within the book the authors contributions are inspired in their ways of working with ethical questions by Wittgenstein s conceptions of language understanding and the nature of philosophical inquiry This book is of interest to philosophers influenced by Wittgenstein as well as to all ethicists seeking ideas for how to do philosophy in a manner close to lived experience and practice

Ethics and Time in the Philosophy of History Natan Elgabsi,Bennett Gilbert,2023-01-12 This interdisciplinary volume connects the philosophy of history to moral philosophy with a unique focus on time Taking in a range of intellectual traditions cultural and geographical contexts the volume provides a rich tapestry of approaches to time morality culture and history By extending the philosophical discussion on the ethical importance of temporality the editors disentangle some of the disciplinary tensions between analytical and hermeneutic philosophy of history cultural theory meta ethical theory and normative ethics The ethical and existential character of temporality reveals itself within a collection that resists the methodological underpinnings of any one philosophical school The book s distinctive cross cultural approach ensures a wide range of perspectives with contributions on life and death in Japanese philosophy ethics and time in Maori philosophy non traditional temporalities and philosophical anthropology as well as global approaches to ethics These new directions of study highlight the importance of the ethical in the temporal inviting further points of departure in this burgeoning field

Setting the Moral Compass Cheshire Calhoun,2004 Setting the Moral Compass brings together the largely unpublished writings of 19 women moral philosophers whose work has contributed to the re setting of the compass of moral philosophy since the 1980s

Beyond Blood Identities Jason D. Hill,2009-10-28 Beyond Blood Identities uncovers the social psychology of those who hold strong blood identities In this highly original work Jason D Hill argues that strong racial ethnic and national identities which he refers to as tribal identities function according to a separatist logic that does irreparable damage to our moral lives Drawing on scholarship in philosophy sociology and cultural anthropology Hill contends that strong tribalism is a form of pathology Beyond Blood Identities shows how a particular understanding of culture could lead to a new theoretical approach to enriched human living Hill develops a new version of cosmopolitanism that he calls post human cosmopolitanism to solve a number of challenges in contemporary society From the problem of defining culture the failure of multiculturalism the question of who owns native culture the identification of Jews as post human people and the problem of their status as chosen people in a modern world the author applies a cosmopolitan analysis to some of the major problems in our global and interdependent world He posits a world in which community has been dispensed with and replaced by its successor term sociality the broad unmarked space in which creative social intercourse takes place Hill applies a new cosmopolitanism to ideate a new post humanity for the twenty first century
