Fifty Key Medieval Thinkers G.R. Evans, 2002-09-11 Focussing on individuals whose ideas shaped intellectual life between 400 and 1500 *Fifty Key Medieval Thinkers* is an accessible introduction to those religious philosophical and political concepts central to the medieval worldview Including such diverse figures as Bede and Wyclif each entry presents a biographical outline a list of works and a summary of their main theories alongside suggestions for further reading Chronologically arranged and with an introductory essay which presents important themes in context this volume is an invaluable reference tool for all students of Medieval Europe **Forthcoming Books** Rose Arny, 2004 **Peter Lombard** Philipp W. Rosemann, 2004-04-01 Peter Lombard is best known as the author of a celebrated work entitled *Book of Sentences* which for several centuries served as the standard theological textbook in the Christian West It was the subject of more commentaries than any other work of Christian literature besides the Bible itself The *Book of Sentences* is essentially a compilation of older sources from the Scriptures and Augustine down to several of the Lombard's contemporaries such as Hugh of Saint Victor and Peter Abelard Its importance lies in the Lombard's organization of the theological material his method of presentation and the way in which he shaped doctrine in several major areas Despite his importance however there is no accessible introduction to Peter Lombard's life and thought available in any modern language This volume fills this considerable gap Philipp W Rosemann begins by demonstrating how the *Book of Sentences* grew out of a long tradition of Christian reflection a tradition ultimately rooted in Scripture which by the twelfth century had become ready to transform itself into a theological system Turning to the *Sentences* Rosemann then offers a brief exposition of the Lombard's life and work He proceeds to a book by book examination and interpretation of its main topics including the nature and attributes of God the Trinity creation angelology human nature and the Fall original sin Christology ethics and the sacraments He concludes by exploring how the *Sentences* helped shape the further development of the Christian tradition from the twelfth century through the time of Martin Luther
