Fighting Cancer With Vitamins And Antioxidants:

Fighting Cancer with Vitamins and Antioxidants Kedar N. Prasad, K. Che Prasad, 2011-10-19 The most up to date and complete resource on the powerful benefits of micronutrients for cancer treatment and prevention Written by the nation's leading expert on vitamins and cancer research Reveals how to maximize the benefits of your cancer treatment program while minimizing the side effects of chemotherapy and radiation Shows how to counteract the carcinogenic effects of dental X rays CT scans mammograms cell phones and other unavoidable hazards of modern life Provides an easy to follow program of nutritional supplements to improve your odds of avoiding and beating cancer Despite extensive research and the development of new treatments and drugs the U S mortality rate from cancer has not changed during the past several decades Yet there are promising nutritional ways of avoiding and even beating cancer In this completely revised and expanded edition leading anticancer researcher Kedar N Prasad and doctor K Che Prasad reveal the latest revolutionary discoveries in the use of antioxidants and micro nutrients to prevent and treat cancer and also help with heart disease Alzheimer's and Parkinson's Providing a simple nutritional program to follow the authors show how micro nutrients vitamins and antioxidants can enhance the beneficial effects of conventional cancer treatments decrease their toxic side effects improve long term prognosis and reduce the risk of new cancer Explaining how antioxidants regulate gene expression and cancer heredity the authors detail how to counteract the risks of dental and medical X rays CT scans mammograms cell phones frequent flying and other unavoidable hazards of modern life reduce the oxidative stress of free radicals in the blood and decrease chronic inflammation Reviewing recent studies they deflate the controversies surrounding the use of antioxidants in cancer treatment revealing everything from the reason why many vitamins in foods are destroyed during storage to the surprising role of selenium in cancer prevention

Fight Cancer with Vitamins and Supplements Kedar N. Prasad, Che Prasad, 2001 The evidence is in the micronutrients found in foods and supplements can have a positive and powerful effect in the battle to prevent cancer This handbook explains the latest studies and separates facts from myths on promising anticancer compounds including antioxidants lipoic acid green tea and garlic

NUTRITION AND CANCER ANTI CANCER DIET Susan Zeppieri, 2022-08-30 Cancer Diet Book is an easy to follow dietary guide for those struggling with cancer This cookbook helps you to avoid the most common pitfalls and manages to get you on track quickly The book's main goal is to help people living with cancer to regain their health and to enjoy a long and healthy life

Novel Approach to Curing Cancer Jianqing Wu, Ping Zha, 2019-08-11 In this book the authors make extensive comparison between medical treatments and health optimization methods an improved mind body model in order to determine their relative and TRUE benefits for cancer patients For the health optimization method they examine its use history acceptance and performance throughout its history and for medicine they examine medical treatment history leading cancer theories standard of care formation formation of legal frameworks and overwhelming performance data we could find from the massive medical

literature We can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing The book 1 discloses a systematic methodology for curing cancer in confidence 2 extensively discusses how to do right things to win a speed contest in fighting cancer 3 extensively discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conduct a detailed analysis of four killer factors which are routinely found in nearly all cancer care The approach used is similar to one used in Health Optimization Engineering a new branch of health art The book teaches the decisive roles of SPEED NUMBER and MULTIPLE FACTORS and how to fight cancer by using a two way optimization methodology Those three terms and optimization method are not mentioned in medical books cancer research articles and are not part of the language used in hospitals Our simulation and our kinetic studies show that both cancer development and reversal processes would take many years The rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate This is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish The approach we use in this book is directly in conflict with three core concepts in medicine dualism reductionism and population based approach Moreover we found that medical treatments can partially neutralize and totally nullify the curative benefits of our optimization method Based on our own findings and the results from reanalyzing massive existing medical publications we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases We try to analyze every issue in the most comprehensive way Our analysis covers medical model and its legal framework leading cancer theories treatment development histories formation of standard of care control selections in drug trials the massive cancer controversies and mountains of actual performance data The most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews We try to build a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model
