## **Fighting Cps Guilty Until Proven Innocent Of Child Protective Services Charges:**

**Fighting CPS** Deborah K. Frontiera, 2011 This text chronicles 13 months of agony and frustration suffered by the innocent Bonilla and Frontiera families as a result of Children's Protective Services removal of young James Bonilla from his parents. The author issues a call to action from the public to charge all levels of government to make necessary changes in these agencies.

**Denied! Failing Cordelia: Parental Love and Parental-State Theft in Los Angeles Juvenile Dependency Court** Simon Cambridge, 2019-09-17 Climbing the Broken Judicial Ladder continues the author's journey of exploring the heartbreak and loss of first adopting Cordelia with severe reactive attachment disorder RAD in Washington state and then of nearly losing her to the draconian and confused child welfare legal complex in Los Angeles. In this third volume of his Denied Failing Cordelia trilogy, Cambridge climbs the broken California judicial ladder from the California Court of Appeals Second Appellate District based in Los Angeles to the California Supreme Court. Cambridge concludes that in appeals relating to dependency cases, the ladder is broken for parents seeking to advocate for themselves and for the true best interests of their children. Policies relating to child welfare are flawed, Cambridge argues, because of the preemptive and prejudicial response to the issues raised during the detention of children. As with his two earlier books, Cambridge explores issues connected with how best to parent his adopted daughter and advocate for her needs in the context of a dependency case. Cordelia's reactive attachment disorder would surface throughout the judicial struggle, as would the author's own struggles with Asperger syndrome. Each would feed negatively into the overall trauma and drama of the author's unrelenting quest to reunite his forever family. Cambridge believes that dependency proceedings are ill equipped on many levels to elicit a proper understanding of RAD or of the therapeutic parenting needed to address it. Cambridge believes that adoptive parents of children with special needs need to be understood by more sympathetic social workers and by therapists trained in attachment disorders. Cambridge's persistent efforts to reunite his forever family would leave him increasingly isolated as he climbs the judicial ladder. Based on his experiences, Cambridge explores areas for reform in Los Angeles dependency proceedings and evokes Shakespeare's King Lear by arguing that social workers need to see better and that the Los Angeles Juvenile Dependency Court needs to encourage a broader understanding of the issues raised through more effective legal advocacy from assigned dependency lawyers. Cambridge argues that parents should be allowed to address the court directly. Cambridge also relates how he and his daughter have found many positive and healthy ways to heal in the years since their dependency case ended. Much trauma could have been avoided if those around them had seen better and had recognized the value in their dramatic and loving adoption journey.

**Matriarch** Geoffrey Hope Gibson, 2015-06-01 Powerful and unforgettable. At the beginning of the twentieth century, the son of an English lord settles in Australia and marries an indigenous woman. It is an age when interracial relationships are not only misunderstood but result in family conflict, disgrace, and disinheritance. Then the Christian missionaries come. They destroy the timeless culture and beliefs of Australia's

indigenous people leaving them to flounder in a soup of the white man's religious beliefs. The great grandmother's telling of the family story is the nourishment that holds it together through war and the constant battle to adjust and exist in a white man's world. The Christian missionaries will not tolerate any belief or view other than their own. Amid all this religious and racial conflict, the great grandchildren adjust and eventually prosper. The young man distinguishes himself in the conflict in Vietnam while his sister finds her place and flourishes in the food and catering industry. From the Boer War through two World Wars, the Vietnam War, and the last decades of the twentieth century, *Matriarch* takes readers on an eye-opening journey through Australian history culminating in a serial murder mystery that opens old family wounds. Author Geoffrey Hope Gibson's historical sweep of Australia's past is as broad as James A. Michener's. His style is reminiscent of Richard Llewellyn's depictions of Wales and Argentina, and his depiction of Aborigine mistreatment rivals the most frightening moments in Tayeb Salih's classic postcolonial novel *Season of Migration to the North*. *Matriarch* is a captivating story that will take readers through time within the aboriginal heart in Australia and feel the raw truth of their history and social evolution to current times. A Must Read.

Susan Violante, Managing Editor of Reader Views and author of *Innocent War*. This sprawling epic tale of love, marriage, injustice, ancestors, misguided religion, grief, rage, and murder is a testament to how the past never dies. In one family's struggles, Gibson creates a story that calls forth the best and worst of what it means to be human. Powerful and unforgettable.
