

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.

Poyntz, 2020-09-04 Over the past forty years media education research has emerged as a historical epistemological and practical field of study. Shifts in the field along with radical transformations in media technologies, aesthetic forms, ownership models, and audience participation practices have driven the application of new concepts and theories across a range of both school and non-school settings. The Handbook on Media Education Research is a unique exploration of the complex set of practices, theories, and tools of media research. Featuring contributions from a diverse range of internationally recognized experts and practitioners, this timely volume discusses recent developments in the field in the context of related scholarship, public policy, formal and non-formal teaching and learning, and DIY and community practice. Offering a truly global perspective, the Handbook focuses on empirical work from Media and Information Literacy (MIL) practitioners from around the world. The book's five parts explore global youth cultures and the media, trans-media learning, media literacy, and scientific controversies; varying national approaches to media research; media education policies; and much more. A ground-breaking resource on the concepts and theories of media research, this important book provides a diversity of views and experiences relevant to media literacy education research. Features contributions from experts from a wide range of countries including South Africa, Finland, India, Italy, Brazil, and many more. Examines the history and future of media education in various international contexts. Discusses the development and current state of media literacy education institutions and policies. Addresses important contemporary issues such as social media use, datafication, digital privacy rights, and divides and global cultural practices. The Handbook of Media Education Research is an invaluable guide for researchers in the field, undergraduate and graduate students in media studies, policy makers, and MIL practitioners. **Resources in education**
