Workbook for the Body Keeps the Score Dorian Marshman, 2021-12-18. Trauma is a fact of life. A pioneering researcher transforms our understanding of trauma and offers a bold new paradigm for healing in this New York Times bestseller. Whether we are sheltered, wealthy, and given every opportunity in life, or if we are impoverished, socially outcast, and have been exposed to upsetting realities of life, we all experience trauma. Trauma, whether we are aware of its effects on us or not, has a nasty way of debilitating our lives and harming our efforts to live and love healthily. Trauma is one of the fundamental contributing factors in what makes us who we are and how we react to the world around us. By working through it, we can heal the aspects of ourselves that cause both us and those around us pain. This workbook contains exercises, presents ideas, and poses transformative questions as a means to help readers work through trauma. The workbook is based on the #1 New York Times Bestseller *The Body Keeps the Score: Brain, Mind, and Body in the Healing of Trauma* written by Bessel van der Kolk. In an attempt to help readers understand where their Post-Traumatic Stress Disorder (PTSD) comes from and how it has affected our brains and bodies, this book is designed to reveal how an active approach to discovering and working through trauma can assist in reclaiming our lives. *The Body Keeps the Score* serves as a tool in understanding how trauma has a fundamental impact on the shape and function of both our brains and our bodies. In tandem with these ideas, as well as an extension of the book, this workbook offers a guideline for working through the systematic steps of PTSD recovery. It also offers an active approach for trauma victims to process and resolve the pain of the past that hinders them from living a full and weightless life. The chapters in this workbook cover the following: Detecting Trauma, Discussion on what trauma is and how the different forms that it can take will affect your mind and your body differently, In-depth discussion also included on emotional and physiological trauma, Common Signs and Symptoms of Trauma, Information on how to identify PTSD based on how your body responds to events or situations.
