Freedom from the Self Mohammad Shafii,1985 Compares modern psychoanalytic theory with Sufism examines how each helps troubled individuals and describes stages of development in Sufism      **Practising the Dhamma with a View to Nibbāna** Radhika Abeysekera,2002 This book is divided into two parts that I have called THE WHY and THE HOW Part I shows you WHY you should practise the Dhamma with a view to Nibbana It is designed to make you understand how rare is the appearance of a Buddha and how very fortunate you are to be born at a time when the teachings of a Buddha are available It also shows you how difficult and rare it is to be born as a human being It is designed to encourage you to strive on with diligence and concentrated continuous effort Part II concentrates on HOW one practises the Dhamma with a view to Nibbana Once you have realized the urgency of practising the Dhamma it is important to know how to practise the Dhamma with a view to Nibbana THE HOW begins by introducing you to Nibbana and the characteristics that must be destroyed to attain it and then goes on to show how one destroys or eradicates each of these characteristics It is designed to introduce the reader to the practice of the Dhamma with a view to enlightenment Author s preface      *Zen and the Practice of Teaching English* Robert Tremmel,1999 This book represents the first serious attempt by an educator to combine the practice of teaching English with fundamental principles of Zen in an effort to help teachers achieve a new perspective on their professional lives It is a personal book based on personal knowledge inviting readers to consider the possibility that the foundations of teaching practice are the very foundations of life and that life inside and outside the classroom is more like one life than two Zen and the Practice of Teaching English originates in Robert Tremmel s struggles as a teacher and teacher educator His book reaches out and rests on three important grounding points that define his life as a teacher school because everything the author has to say is based on his daily work with students student teachers and secondary teachers professional knowledge because Tremmel believes no one can live fully as a professional without maintaining contact with and participating in ongoing conversations with other professionals spiritual practice which is connected in this book to teaching practice and all the practices of living Preservice teachers will come away from this book with a clearer understanding of their decision to teach and the disciplines and abilities they must cultivate for a solid beginning Experienced teachers will gain a deeper appreciation of their own commitment and accomplishments and a renewed sense of fellowship with their colleagues throughout the profession As Tremmel writes My purpose in writing this book is not to add to what I see as an already more than healthy and growing supply of scholarship about teaching Instead I want to focus on what I finally found in my own teaching practice that helped me start making sense of the confusion that was my own but that I know is felt also by others who have teaching in their blood      **Take a Moment** Paul Christelis,2021-10-14 Take a moment to feel calmer and less stressed with these 50 simple mindfulness activities for kids This book gives children teachers and

parents ideas for how to introduce more mindful moments into their lives The book is broken into six sections Mindful Breathing Mindful Listening Mindful Looking Mindful Emotions Mindful Awareness and Mindful Appreciation Each section includes advice as well as practical activities There are also one minute exercises that are perfect for time poor teachers and parents and children with short attention spans Activities are relevant for different times Begin the day with some affirmations aspirations and positivity Take a moment at lunchtime to engage in mindful eating Re energise after lunch with some simple stretches Release tension in the evening with deep breaths and mindful de cluttering to help you sleep Soft sensitive illustrations will add to the mood of calm Create some mindful moments in your life with these simple activities
