Alternative Models of Addiction Hanna Pickard,Serge H. Ahmed,Bennett Foddy,2015-12-07 For much of the 20th century theories of addictive behaviour and motivation were polarized between two models The first model viewed addiction as a moral failure for which addicts are rightly held responsible and judged accordingly The second model in contrast viewed addiction as a specific brain disease caused by neurobiological adaptations occurring in response to

chronic drug or alcohol use and over which addicts have no choice or control As our capacity to observe neurobiological phenomena improved the second model became scientific orthodoxy increasingly dominating addiction research and informing public understandings of addiction More recently however a dissenting view has emerged within addiction research based partly on new scientific research and partly on progress in philosophical and psychological understandings of relevant mental phenomena This view does not revert to treating addiction as a moral failure but nonetheless holds that addictive behaviour is fundamentally motivated by choice and subject to at least a degree of voluntary control On this alternative model of addiction addictive behaviour is an instrumental means to ends that are desired by the individual although much controversy exists with respect to the rationality or irrationality of these ends the degree and nature of the voluntary control of addictive behaviour and motivation the explanation of the difference between addictive and non addictive behaviour and motivation and lastly the extent to which addictive behaviour and motivation is correctly characterised as pathological or diseased This research topic includes papers in the traditions of neuroscience psychology philosophy law and social science that explore alternative understandings of addiction     The Utne Reader ,1995     **You Are Your Choices** Alexandra Stoddard,2009-10-13 With her 25th book lifestyle philosopher Alexandra Stoddard offers simple steps for taking charge of your life your way In brief essays filled with useful examples and optimism she reveals 50 choices you can make to live joyfully in pursuit of what is true good and beautiful As a pioneering writer and lecturer on personal happiness for the past twenty years Alexandra has inspired millions to break the rules and pursue fulfillment Now as scientists have begun to discover the benefits of living a happy life Alexandra provides practical ways to live happily every day She puts us in charge of our choices reminding us that we always have a choice about what we think feel and do When we are true to ourselves we can fly above stress and conflict contented and confident that we are the right path Featuring essays that help us trust ourselves Intuition is your guiding light stay steady in a storm Your choices count most in a crisis embrace the new Accept opportunity address unfinished business Have as few regrets as possible surround ourselves with delights Redefine what is beautiful and remember to have fun Cheap thrills are thrilling Every choice you make is an opportunity to delight in life You Are Your Choices offers insight and companionship each step of the way     *Spa* ,2009
