The Island Setting and Shipwreck Experience in Three Dystopian Novels M. Klaiber,2023-04-12 Master s Thesis from the year 2021 in the subject English Language and Literature Studies Literature grade 1 0 Johannes Gutenberg University Mainz language English abstract This thesis explores three dystopian novels that depict different forms of island societies The Island of Doctor Moreau by H G Wells 1896 Lord of the Flies by William Golding 1954 and The Wall by John Lanchester 2019 The author splits his text into two parts a theoretical framework and an analysis The theoretical framework is again subdivided The first section lays the foundation for the analysis of dystopian island settings and explains and discusses important concepts and key terms regarding dystopia and islands Subsequently the author provides an overview of functions that islands can fulfill for a society The second section of

the theoretical framework introduces and explains the tools necessary for the analysis of control mechanisms within societies. These tools make it possible to uncover how the respective fictional society organises and controls itself. For the analysis of control mechanisms and power structures in these societies, this thesis draws on various concepts of power proposed by Michel Foucault. In the analysis which constitutes the second main part of this thesis, the author examines each novel separately in chronological order. By systematically applying the guiding questions mentioned in the methodology, a detailed analysis of the insular societies depicted in the three novels is conducted. *Magill's Guide to Science Fiction and Fantasy Literature: Software and wetware*, 1996. These four volumes cover 791 books or series; 238 of them published during the 1980s and 1990s; the entries are 1 000 words long for single books and 1 500 for series with a one sentence summary beginning each entry followed by bibliographical information. Volume 4 contains an extensive bibliography of critical works on science fiction and fantasy, a list of major award winners, a genre index, Booklist. *Science-fiction Studies*, 1995.

Science Fiction and Fantasy Reference Index, 1985-1991 Halbert W. Hall, 1993 **Feminism and Science Fiction** Sarah Lefanu, 1989. Su objetivo es profundizar en la cuestión de si la ciencia ficción a pesar de su orientación predominantemente masculina podría ofrecer a la mujer escritora una libertad por encima de las posibilidades del resto de la literatura tanto en términos de estilo como de contenido. En un sentido más amplio se trataría de averiguar si puede ofrecer un medio de fusión entre contenidos políticos, feminismo e imaginación. Desde el punto de vista del feminismo supone también un análisis del resto de la literatura de ciencia ficción deteniéndose especialmente en la imagen de la mujer que esta ha ofrecido. **Time machine: Utopia or Science Fiction** Kristijan Zrinski, 2013-06-26. Seminar paper from the year 2012 in the subject Didactics for the subject English Literature Works grade 3.0 University of Trier language English abstract. This term paper deals with the question which literary genre does *The Time Machine* by H. G. Wells fit best into. Should it be seen as a dystopian novel or should it be rather classified as a science fictional one and why is it so hard to classify? As the novel shows characteristics for either genres, the novel has to be analysed accurately. In order to do so and find an answer to the main question, I will point out and examine relevant passages in the text which will help classifying Wells' work. Therefore it is essential to first of all define both literary genres. These definitions are to include the origin of the genre, main characteristics as well as appropriate background information. As already mentioned, the definitions will be followed by an in-depth analysis of significant text passages. Finally, my conclusion is intended to sum up the most important findings and aims to present a classification based on the analysis in the main part. *Literature for Today's Young Adults* Alleen Pace Nilsen, Kenneth L. Reader friendly and comprehensive. *New Scientist and Science Journal*, 2009. **Young Adult Science Fiction** Charles William Sullivan, 1999-03-30. At the close of the nineteenth century American youths developed a growing interest in electricity and its applications, machines and gadgetry. When authors and publishers recognized the extent of this interest in technology, they

sought to create reading materials that would meet this market need The result was science fiction written especially for young adults While critics tended to neglect young adult science fiction for decades they gradually came to recognize its practical and cultural value Science fiction inspired many young adults to study science and engineering and helped foster technological innovation At the same time these works also explored cultural and social concerns more commonly associated with serious literature Nor was young adult science fiction a peculiarly American phenomenon authors in other countries likewise wrote science fiction for young adult readers This book examines young adult science fiction in the U S and several other countries and explores issues central to the genre The first part of the book treats the larger contexts of young adult science fiction and includes chapters on its history and development Included are discussions of science fiction for young adults in the U S and in Canada Great Britain Germany and Australia These chapters are written by expert contributors and chart the history of young adult science fiction from the nineteenth century to the present The second section of the book considers topics of special interest to young adult science fiction Some of the chapters look at particular forms and expressions of science fiction such as films and comic books Others treat particular topics such as the portrayal of women in Robert Heinlein s works and representations of war in young adult science fiction Yet another chapter studies the young adult science fiction novel as a coming of age story and thus helps distinguish the genre from science fiction written for adult readers All chapters reflect current research and the volume concludes with extensive bibliographies Foundation ,1987
