This book examines 30 common motifs that thread their way through mythological tales across history and around the globe. The themes are presented in alphabetical order, moving from The Afterlife and Animals in Myth to The Underworld, World Tree and Ymir Motif. Each thematic section defines and discusses a single recognizable motif, compares a number of different mythological traditions and traces the repeated occurrences of one of these patterns through several different categories of narratives. The discussion of The Afterlife, for example, examines the theme's earliest known occurrences in ancient Mesopotamia and compares them with those in Greek, Aztec, Norse and other ancient cultures as well as with contemporary views from Inuit and Polynesian cultures.
