Diskursmarker Sabine Diao Klaeger:

Manual of Romance Languages in Africa Ursula Reutner, 2023-12-18 With more than two thousand languages spread over its territory multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-European in many instances. Romance, as they were primarily brought to Africa in the era of colonization, the areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal, or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese, and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics, and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information, and illustrates language contact situations, power relations, as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.

Classroom Discourse Competence Katrin Thomson, 2022-04-04 In language learning contexts, the role of the language teacher is a particularly crucial one; it is the teacher who, through and with their use of the foreign language, has a significant influence on the extent to which language learners are linguistically cognitively activated and thus determines whether processes of language learning are initiated and promoted or perhaps even impeded or prevented. Thus, it is of utmost importance for language teachers to acquire a high level of classroom discourse competence. CDC, a professional competence that goes far beyond the notions of FL proficiency and communicative competence, is located at the intersection of theory, classroom research, and practical approaches to EFL teacher education. *Classroom Discourse Competence: Current Issues in Language Teaching and Teacher Education* offers university students, trainee teachers, in-service teachers, and teacher educators a comprehensive conceptualization of CDC. Part I: Furthermore, the chapters in this book explore facets of CDC. Part II: and present good practice examples of CDC development in the context of pre-service teacher education. Part III: **Learner Corpora and Language Teaching** Sandra Götz, Joybrato

Mukherjee, 2019-05-06 While native corpora and corpus linguistic tools and methods have been used and applied for quite some time in the development of learning and teaching materials, learner corpora are only just beginning to impact the field of language teaching, testing, and assessment. This volume helps to close this still-existing gap and highlights the great potential of learner corpus research for language pedagogy by presenting a selection of 11 original studies on learner corpora conducted by established experts as well as by excellent young researchers. The papers included in the volume present new corpora and methods studies on written as well as spoken learner corpora and on using data-driven learning scenarios in the classroom. All papers include sections on practical and concrete language pedagogical applications. This volume will be of significant interest to researchers working in corpus linguistics, learner corpus research, second language acquisition, and English for Academic and Specific Purposes, as well as to language teachers and materials developers.
