Racial Ambiguity in Asian American Culture Jennifer Ann Ho, 2015-05-12 The sheer diversity of the Asian American populace makes them an ambiguous racial category Indeed the 2010 U S Census lists twenty four Asian ethnic groups lumping together under one heading people with dramatically different historical backgrounds and cultures In *Racial Ambiguity in Asian American Culture* Jennifer Ann Ho shines a light on the hybrid and indeterminate aspects of race revealing ambiguity to be paramount to a more nuanced understanding both of race and of what it means to be Asian American Exploring a variety of subjects and cultural artifacts Ho reveals how Asian American subjects evince a deep racial

ambiguity that unmoors the concept of race from any fixed or finite understanding For example the book examines the racial ambiguity of Japanese American nisei Yoshiko Nakamura deLeon who during World War II underwent an abrupt transition from being an enemy alien to an assimilating American via the Mixed Marriage Policy of 1942 It looks at the blogs of Korean Taiwanese and Vietnamese Americans who were adopted as children by white American families and have conflicted feelings about their honorary white status And it discusses Tiger Woods the most famous mixed race Asian American whose description of himself as Cablinasian reflecting his background as Black Asian Caucasian and Native American perfectly captures the ambiguity of racial classifications Race is an abstraction that we treat as concrete a construct that reflects only our desires fears and anxieties Jennifer Ho demonstrates in *Racial Ambiguity in Asian American Culture* that seeing race as ambiguous puts us one step closer to a potential antidote to racism

**Migrants and Race in the US** Philip Kretsedemas,2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and race that extend beyond the US and makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *U.C.
