

DISPERSING POWDER

The background of the book cover is a stylized map of South America. The map is divided into three main color regions: yellow on the left, green on the right, and a dark green/black area at the bottom. Overlaid on the map are several concentric black circles, creating a ripple effect. A bright blue lightning bolt originates from the top center and points downwards towards the country of Bolivia, which is labeled in yellow text. The overall design is bold and graphic.

Dispersing Power Social Movements As Anti State Forces:

Dispersing Power Raul Zibechi, 2010 Building power beyond the state **The Palgrave Handbook of Social Movements, Revolution, and Social Transformation** Berch Berberoglu, 2018-09-26 This handbook on social movements revolution and social transformation analyzes people's struggles to bring about social change in the age of globalization. It examines the origins, nature, dynamics, and challenges of such movements as they aim to change dominant social, economic, and political institutions and structures across the globe. Departing from a theoretical introduction that explores major classical and contemporary theories of social movements and transformation, the contributions collected here use a class-based approach to examine key cases of social movements, rebellions, and revolutions worldwide from the turn of the twentieth to the early twenty-first centuries. Against this wide-ranging background, the handbook concludes by charting the varied and competing future developments and trajectories of social movements, revolutions, and social transformations.

Utopia and the Dialectic in Latin American Liberation Eugene Gogol, 2015-10-05 *Utopia and the Dialectic in Latin American Liberation* begins by examining the concept of utopia in Latin American thought, particularly its roots within indigenous emancipatory practice and suggests that within this concept of utopia can be found a resonance with the dialectic of negativity that Hegel developed under the impact of the French Revolution, further developed by such thinker-activists as Marx, Lenin, and Raya Dunayevskaya. From this theoretical-philosophical plane, the study moves to the liberation practices of social movements in recent Latin American history. Movements such as the Zapatistas in Mexico, Indigenous feminism throughout the Americas, and Indigenous struggles in Bolivia and Colombia are among those taken up most often in the words of the participants. The study concludes by discussing a dialectic of philosophy and organization in the context of Latin American liberation.

Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region. It examines the developments of the past twenty years, such as a renewed upswing in popular mobilization, the ending of violent conflicts and military governments, new struggles, and a relatively more democratic climate. It shows that from southern Chiapas to Argentina, social movements in the 1990s and especially in the 2000s have reached new heights of popular participation. There is a lack of research on the politics of this region in the contemporary era of globalization; this volume partially fills the void and offers a rich resource to students, scholars, and the general public in terms of understanding the politics of mass mobilization in the early twenty-first century. The contributors each address social movement activity in their own nation, and together they present a multidisciplinary perspective on the topic. Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle: for instance, the main protagonists in the campaigns, the grievances of the population, and the outcomes of the struggles. This Handbook is divided into seven substantive themes, providing overall coherence to a broad range of social conflicts across countries, issues, and

social groups These themes include 1 theory of Latin American social movements 2 neoliberalism 3 indigenous struggles 4 women s movements 5 movements and the State 6 environmental movements and 7 transnational mobilizations **Towards Anti-policing** Simon Springer,Richard J. White,2024-02-14 Offering a diagnostic global perspective on police brutality Towards Anti policing Prefiguring Possibilities beyond the Thin Blue Line raises critical questions about whether policing is needed at all and what underlying purpose it actually serves In this post pandemic era where the grip of authoritarianism has only tightened Towards Anti policing positions radical grassroots activism as a first line of critical defiance against the Fear Terror Paradigm of policing logics and the pervasive brutality that this form of community control represents **Deciding for Ourselves** Cindy Milstein,2020-04-21 In a time of social and ecological crises people everywhere are looking for solutions States and capitalism rather than providing them only make matters worse There s a growing sense that we ll have to fix this mess on our own But how Deciding for Ourselves in the spirit of the Zapatistas demonstrates that the impossible is possible A better world through self determination and self governance is not only achievable It is already happening in urban and rural communities around the world from Mexico to Rojava Denmark to Greece as an implicit or explicit replacement for nations police and other forms of hierarchical social control This anthology explores this sense of freedom in the air as one piece puts it by looking at contemporary examples of autonomous directly democratic spaces and the real world dilemmas they experience all the while underscoring the egalitarian ways of life that are collectively generated in them
