Dispute Management Heritage Conservation Archaeological:

Dispute Management in Heritage Conservation Kalliopi Fouseki, 2015 The nature of disputes related to the in situ conservation of archaeological remains into the basements of contemporary buildings are explored in this study Through a novel interdisciplinary approach negotiation theories and models with heritage management practices are merged and the concept of in situ museums structures that conserve in situ archaeological remains is introduced The author discusses examples of in situ conservation of archaeological remains in contemporary private and public buildings including museums Special emphasis is given on the Acropolis Museum which is linked with a wide range of conflicts at local national and international level The book concludes with a proposed strategy for managing disputes in the heritage sector **Routledge**

Heritage Dynamics Kalliopi Fouseki, 2022-10-13 How does heritage emerge change stagnate disappear and or revive over time Should heritage be approached as a non renewable resource that needs to be sustained for eternity or as a renewable resource that adapts to change and transformation Heritage Dynamics deconstructs the dynamic nature of heritage Heritage as a socio cultural practice goes through non linear continuous lifecycles where certain factors will be the catalyst for the ending of one lifecycle and the revival for another Kalliopi Fouseki develops a theoretical and methodological framework of heritage dynamics which is used as the analytical thread of six heritage contexts heritage led transformation in historic urban places decision making on energy efficiency and heritage conservation in everyday heritage residential buildings lifecycles of heritage collections exhibition dynamics and the impact of participation with emphasis of difficult heritage dynamics of dissonance on contested museums and the dynamics of intangible heritage with emphasis on flamenco The book offers a new theoretical and methodological framework that will enable heritage scholars and practitioners to unpack the ways and conditions under which heritage changes The new

theoretical framework will re orientate current thinking of heritage as a thing a process or discourse towards a new more systemic thinking that captures the complexity of heritage Methodologically Heritage Dynamics introduces the potential of systemic methods such as system dynamics in capturing the dynamic nature of heritage The new theory and method not only opens up new avenues for theoretical explorations but also offers a significant tool for heritage managers and policymakers

International Heritage Law for Communities Lucas Lixinski,2019-05-30 This book critically engages the shortcomings of the field of international heritage law seen through the lenses of the five major UNESCO treaties for the safeguarding of different types of heritage It argues that these five treaties have effectively prevented local communities who bear the brunt of the costs associated with international heritage protection from having a say in how their heritage is managed The exclusion of local communities often alienates them not only from international decision making processes but also from their cultural heritage itself ultimately meaning that systems put in place for the protection of cultural heritage contribute to its disappearance in the long term International Heritage Law for Communities adds to existing literature by looking at these UNESCO treaties not as isolated regimes but rather as belonging to a discursive continuum on cultural heritage In doing so the book focuses on themes that cut across the relevant UNESCO regimes like the use of expert rule in international heritage law economics the relationship between heritage and the environment among others rather than the regimes themselves It uses this mechanism to highlight the blind spots and unintended consequences of UNESCO treaties and how choices made in their drafting have continuing and potentially negative impacts on how we think about and safeguard heritage
