Disputed Truth Memoirs II:

Disputed Truth Hans Küng, 2010-01-06 Hans Küng has been a major influence on post war Christianity by any reckoning a peritus for the second Vatican council he then went on to publish a number of controversial books including *Infallible* which enraged the Vatican and caused him to lose the ecclesiastical approval of his teaching at the university of Tübingen However he remains a respected priest in good standing with his bishop Throughout all the upheavals that the Catholic Church has undergone in recent decades Küng has been an outspoken observer turning himself from enfant terrible to bête noire However his world influence has been great Whether speaking at the United Nations or consorting with politicians and religious leaders he is always listened to with respect and enthusiasm A string of recent books has added to the reputation notably *On Being a Christian* and *Does God Exist* What is not so well known is that as a young man Küng was a close friend and confidant of Joseph Ratzinger Benedict XVI Over the years however they increasingly came to represent exactly what the other most despised But on being appointed to the Holy See Ratzinger had a long private meeting with Küng the consequences of which may resonate within the Catholic Church for many years In these thrilling memoirs Küng gives his personal account of all these struggles and ambitions The result is a book of major importance for any student of the church in the 20th century This second volume covers the period following the close of the Second Vatican Council right up to the present day

Catholic Progressives in England after Vatican II Jay P. Corrin, 2013-11-30 In *Catholic Progressives in England after Vatican II* Jay P Corrin traces the evolution of Catholic social and theological thought from the end of World War II through the 1960s that culminated in Vatican Council II He focuses on the emergence of reformist thinking as represented by the Council and the corresponding responses triggered by the Church's failure to expand the promises or expectations of reform to the satisfaction of Catholics on the political left especially in Great Britain The resistance of the Roman Curia the clerical hierarchy and many conservative lay men and women to reform was challenged in 1960s England by a cohort of young Catholic intellectuals for whom the Council had not gone far enough to achieve what they believed was the central message of the social gospels namely the creation of a community of humanistic socialism This effort was spearheaded by members of the English Catholic New Left who launched a path breaking journal of ideas called *Slant* What made *Slant* revolutionary was its success in developing a coherent philosophy of revolution based on a synthesis of the New Theology fueling Vatican II and the New Left's Marxist critique of capitalism Although the English Catholic New Left failed to meet their revolutionary objectives their bold and imaginative efforts inspired many younger Catholics who had despaired of connecting their faith to contemporary social political and economic issues Corrin's analysis of the periodical and of such notable contributors as Terry Eagleton and Herbert McCabe explains the importance of *Slant* and its associated group within the context of twentieth century English Catholic liberal thought and action

Popes, Councils, and Theology Owen F. Cummings, 2021-06-15 Do you wish to understand something of the contemporary Catholic Church If you do then this book is

for you It offers a careful overview of the history of the church from the mid nineteenth century with Pope Pius IX until the present day with Pope Francis It deals with two major councils of the church Vatican I 1869 70 and Vatican II 1962 65 Furthermore it provides a detailed and accurate summary of the major theological movements in the church during this period

Reforming Rome Donald W. Norwood,2015-01-16 Few people realize that Karl Barth one of the twentieth century s greatest Protestant theologians was among a select group of non Catholic guests who were invited to the Second Vatican Council 1962 65 to assist in the reform and renewal of the Roman Catholic Church In *Reforming Rome* Donald Norwood offers the first book length study of Barth s involvement with Vatican II and his significant impact on the reform of the Catholic Church Norwood examines Barth s critical engagement with the Roman Catholic Church from his time at the Catholic University of Munster to his connection with Vatican II his conversations with Pope Paul VI and seminars and interviews he gave about the Council afterward On the basis of extensive research Norwood amplifies Barth s own very brief account of Vatican II Barth himself often felt that he was better understood by Roman Catholics such as Hans Kng Hans Urs von Balthasar and Joseph Ratzinger than he was by his own Reformed colleagues This study written by a fellow Reformed theologian helps us to see why

Arab Intellectuals and American Power M.D. Walhout,2020-10-01 Edward Said the famous Palestinian American scholar and activist was one of the twentieth century s most iconic public intellectuals whose pioneering and to some controversial work on Orientalism shaped Middle Eastern and postcolonial studies and beyond But how exactly did he arrive at his famous maxim to speak truth to power This dual biographical study examines the lives of Edward Said and the eminent Lebanese philosopher and diplomat Charles Malik a distant relative 30 years his senior whom Said knew from childhood as Uncle Charles To Said Malik was no ordinary relative in his memoir he called Malik the great negative intellectual lesson of my life and was to describe him as an ideal as I was growing up only to later claim Malik went through an ugly transformation that I could never come to terms with M D Walhout charts the development of these two remarkable figures reconstructing in the process the way in which American power in the Middle East came to have a defining effect on Arab intellectuals in the twentieth century Exploring issues of religion and nationalism Walhout shows how Said came to reject much of what Malik stood for Christian faith hardline anti Communism and the benign nature of American power He argues that the example of Malik was instrumental in the development of Said s later belief that the true vocation of the intellectual was not to compromise with power but to resist it
