Encyclopedia of Diversity in Education James A. Banks, 2012-05-17 The diversity education literature both nationally and internationally is broad and diffuse Consequently there needs to be a systematic and logical way to organize and present the state of research for students and professionals American citizens need to understand the dynamics of their increasingly diverse communities and institutions and the global world in which we live work and lead With continually evolving information on diversity policies practices and programs it is important to have one place where students scholars teachers and policymakers can examine and explore research policy and practice issues and find answers to important questions about how diversity in U S education enriched with theories research and practices in other nations are explained and communicated and how they affect institutional change at both the K 12 and postsecondary levels With about 700 signed entries with cross references and recommended readings the Encyclopedia of Diversity in Education 4 volumes in both print and electronic formats will present research and statistics case studies and best practices policies and programs at pre and postsecondary levels Diversity is a worldwide phenomenon and while most of the entries in the Encyclopedia will focus on the United States diversity issues and developments in nations around the world including the United States are intricately connected Consequently to illuminate the many aspects of diversity this volume will contain entries from different nations in the world in order to illuminate the myriad aspects of diversity From A to Z this

Encyclopedia will cover the full spectrum of diversity issues including race class gender religion language exceptionality and the global dimensions of diversity as they relate to education This four volume reference work will be the definitive reference for diversity issues in education in the United States and the world **Global Citizenship Education** Abdeljalil

Akkari,Kathrine Maleq,2020-08-18 This open access book takes a critical and international perspective to the mainstreaming of the Global Citizenship Concept and analyses the key issues regarding global citizenship education across the world In that respect it addresses a pressing need to provide further conceptual input and to open global citizenship agendas to diversity and indigeneity Social and political changes brought by globalisation migration and technological advances of the 21st century have generated a rise in the popularity of the utopian and philosophical idea of global citizenship In response to the challenges of today s globalised and interconnected world such as inequality human rights violations and poverty global citizenship education has been invoked as a means of preparing youth for an inclusive and sustainable world In recent years the development of global citizenship education and the building of students global citizenship competencies have become a focal point in global agendas for education international educational assessments and international organisations However the concept of global citizenship education still remains highly contested and subject to multiple interpretations and its operationalisation in national educational policies proves to be challenging This volume aims to contribute to the debate question the relevancy of global citizenship education s policy objectives and to enhance understanding of local perspectives ideologies conceptions and issues related to citizenship education on a local national and global level To this end the book provides a comprehensive and geographically based overview of the challenges citizenship education faces in a rapidly changing global world through the lens of diversity and inclusiveness *International Perspectives on Citizenship,*

Education and Religious Diversity Robert Jackson,2003-09-02 Citizenship is high on the agenda of education systems in many of the world s democracies As yet however discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship *International Perspectives on Citizenship Education and Religious Diversity* brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions Together these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education The chapters address and extend debates over the nature of citizenship in late modernity highlighting local and global dimensions of citizenship in relation to issues of national religious ethnic and cultural identity As well as emphasising the role religious education has to play in citizenship education this book also covers wider issues such as state supported faith schools and cultural diversity in relation to common citizenship The authors argue that critical yet reflective approaches to religious education have a distinctive and valuable contribution to make to citizenship education Issues addressed within the study of religions are related to new forms of global and cultural citizenship as well as citizenship within the nation state Ultimately this
