## **Diversity's Promise For Higher Education Making It Work:**

**Diversity's Promise for Higher Education** Daryl G. Smith, 2015-06 Daryl G. Smith's career has been devoted to studying and fostering diversity in higher education. She has witnessed and encouraged the evolution of diversity from an issue addressed sporadically on college campuses to an imperative if institutions want to succeed. In this second edition of *Diversity's Promise for Higher Education*, Smith emphasizes a transdisciplinary approach to the topic of diversity, drawing on an updated list of sources from a wealth of literatures and fields. She claims with optimism that when the conclusions from a wide variety of studies using different methodologies begin to converge, we may apply the results with some confidence. Smith responds to recent criticism of diversity efforts on campuses as a convoluted list of grievances without focus on the historic issue of inequity by making explicit the central relationship between diversity and equity. To become more relevant to society, the nation, and the world while remaining true to their core mission, higher education institutions must begin to see diversity as central to teaching and research. She argues that institutions can pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus. This thoughtful volume draws on 50 years of diversity studies. It offers students, researchers, and administrators an innovative approach to developing and instituting effective and sustainable diversity strategies.

*Diversity's Promise for Higher Education* Daryl G. Smith, 2020-08-11 Building sustainable diversity in higher education isn't just the right thing to do; it is an imperative for institutional excellence and for a pluralistic society that works. Updated Edition Daryl G. Smith has devoted her career to studying and fostering diversity in higher education. In *Diversity's Promise for Higher Education*, Smith brings together research from a wide variety of fields to propose a set of clear and realistic practices that will help colleges and universities locate diversity as a strategic imperative and pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus on the critical unfinished business of the past. To become more relevant to society, the nation, and the world while remaining true to their core missions, colleges and universities must continue to see diversity like technology as central, not parallel, to their work. Indeed, looking at the relatively slow progress for change in many areas, Smith suggests that seeing diversity as an imperative for an institution's individual mission and not just as a value is the necessary lever for real institutional change. Furthermore, achieving excellence in a diverse society requires increasing institutional capacity for diversity, working to understand how diversity is tied to better leadership, positive change, research in virtually every field, student success, accountability, and more equitable hiring practices. In this edition, which is aimed at administrators, faculty, researchers, and students of higher education, Smith emphasizes a transdisciplinary approach to the topic of diversity, drawing on an updated list of sources from a wealth of literatures and fields. The tables and figures have been refreshed to include data on faculty diversity over a twenty-year period, and the book includes new information about gender identity, embedded bias, student success, the growing role of chief diversity officers, the international emergence of diversity issues, faculty hiring, and

important metrics for monitoring progress Drawing on forty years of diversity studies this third edition also includes more examples of how diversity is core to institutional excellence academic achievement and leadership development updates issues of language examines the current climate of race based campus protest addresses the complexity of identity and explains how to attend to the growing kinds of identities relevant to diversity equity and inclusion while not overshadowing the unfinished business of race class and gender
