Division Azul La Imagenes:

La División Azul en imágenes Azucena Merino Acebes, 2010 Dos años después de acabada la Guerra Civil Franco decide deshojar la margarita de la participación española en la II Guerra Mundial mediante la creación de un cuerpo de voluntarios capaz de contribuir en las operaciones bélicas llevadas a cabo por el ejército alemán. Con más de 160 fotos inéditas procedentes de archivos históricos. *La División Azul* Gustavo Morales, Luis E. Togados, 2008 [Italian Fascism and Spanish Falangism in Comparison](#) Giorgia Priorelli, 2020-07-01 This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s using the idea of the nation as the focus of the comparison. It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in Mussolini's Italy and Franco's Spain. Exploring the similarities and differences between these two political cultures, this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries. It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies. The book offers a four-level framework for understanding the evolution of the fascist idea of the nation: the ideology of the nation, the imperial projects of Fascism and Falangism, race and the nation, and the place of these cultures in the new Nazi continental order. In doing so, it shows how these ideas of the nation had significant repercussions on fascist political practice. [Sights and Insights](#) Mary N. Harris, 2007 **Changes, Conflicts and Ideologies in Contemporary Hispanic Culture** Teresa Fernández Ulloa, 2014-06-02 This book is formed by various chapters studying the manner in which conflicts, changes and ideologies appear in contemporary Hispanic discourses. The contributions analyze a wide variety of topics related to the manner in which ideological and epistemological changes of the 19th, 20th and 21st centuries are reflected in and shape Spanish language literature and other cultural expressions in both Spain and Latin America. The 19th century was conducive to various movements of independence, while in Europe radical changes of different types and in all contexts of life and knowledge occurred. Language was certainly affected by these changes, resulting in new terminology and discourse strategies. Likewise, new schools of thought such as idealism, dialectic materialism, nihilism and nationalism, among others, were established in addition to new literary movements such as romanticism, evocative of revolution, individualism and realism inspired by the social effects of capitalism. Scientific and technological advances continued throughout the 20th century when the women's liberation movement consolidated. The notion of globalization also appears simultaneously to various crises: despotism, wars, genocide, social exclusion and unemployment. Together, these trends give rise to a vindicating discourse that reaches large audiences via television. The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication. The 21st century is defined by the flood of information and the overpowering presence of mass communication, so much so that the technological impact is clear in all realms of life. From the linguistic viewpoint, the

appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language

Estrategias de supervivencia Gil Pecharromán, Julio,2022-06-17 A lo largo de sus cuatro décadas de existencia el régimen que presidió el general Francisco Franco se desenvolvió en un escenario mundial que experimentó cambios radicales y planteó sucesivos retos a la supervivencia a la dictadura española Con un permanente ejercicio de pragmatismo que se ocultaba tras la cortina de principios doctrinales inmutables el franquismo hubo de afrontar sucesivamente su papel en la Europa de Hitler el aislamiento internacional de la posguerra la búsqueda de apoyos en el mundo árabe y en Hispanoamérica el logro de la seguridad exterior mediante la vinculación a los Estados Unidos de la Guerra Fría los procesos de descolonización de su pequeño imperio africano o los intentos de concertación económica con una Europa democrática que rechazaba su naturaleza autoritaria Al final las estrategias improvisadas y los problemas no resueltos se acumularon para hacer de la política exterior uno de los factores con mayor peso en la apertura de un escenario de transición a la democracia apenas fallecido el dictador

Imágenes insólitas de una dictadura, 1939-1975 Agencia Efe,2002 Colección de fotografías de todo el periodo de la posguerra española desde 1939 a o de la victoria hasta la muerte del dictador en 1975 Las fotografías de muy buena calidad están agrupadas en cuatro capítulos 1 Hambre miseria y orden 2 Tiempo de abrir horizontes 3 Europa aporta divisas trabajo y libertad 4 La dictadura muere en la cama Suponen un testimonio excepcional de la historia de España y de la historia de sus mujeres

Traces of Contamination Eloy E. Merino,H. Rosi Song,2005 Exposing two general perspectives both manifestations of an authoritarian past that still holds a relationship with the present this collection reveals the ideological legacy of the past and its experience as a distressing conditioner of the present The dissonant elements of post Franco discourse critically analyzed by our contributors challenge the seamless narrative that tells the successful story of the Spanish transition to democracy
