Edwards, 2000 Establishing the household as the central institution of southern society Edwards delineates the inseparable links between domestic relations and civil and political rights in ways that highlight women s active political role throughout the nineteenth century She draws on diaries letters newspaper accounts government records legal documents court proceedings and other primary sources to explore the experiences and actions of individual women in the changing South demonstrating how family kin personal reputation and social context all merged with gender race and class to shape what particular women could do in particular circumstances **Dixie's Forgotten People** J. Wayne Flynt, 1980 Protestant residents of the Bible Belt mostly Anglo Saxon in origin form part of the most ethnically homogeneous region of the United States Yet if ethnicity defines a group of racially and historically related people who share a common culture Southern poor whites obviously are a distinct group Poor whites have been isolated from mainstream white Southern culture and have been in turn stereotyped by the dominant culture as rednecks and Holy Rollers discriminated against and misunderstood In their isolation they have developed a unique subculture and defended it with a tenacity and pride that puzzles and confuses the larger society Written twenty five years ago this book was one scholar s attempt to understand these people and their culture For this new edition Wayne Flynt has provided a new introduction and an up to date bibliography Book jacket **From Diversity to Unity** Roger Guy, 2009-01-01 From Diversity to Unity is a community study of settlement and adaptation of southern and Appalachian migrants to the neighborhood of Uptown Chicago Oral histories community newspapers and secondary sources reveal the human experience of urban migration Following the postwar collapse of the coal industry Appalachian migration to northern cities increased significantly Roger Guy examines this migration placing particular emphasis on the role of women in the settlement of the migrants in a new place From Diversity to Unity fills a valuable niche in urban and Appalachian history and is ideal for scholars and students of urban and Chicago history as well as Appalachian

and ethnic studies Book jacket **Ebony** ,1974-06 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **No Depression in Heaven** Alison Collis Greene,2016 A study of the inability of the churches to deal with the crisis of the Great Depression and the shift from church based aid to a federal welfare state **Ebony** ,1974-06 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Forces of Nature* Barry A. Vann,2012-03-20 As long as the human species has existed men and women have had to contend with the unpredictable forces of nature Geographer Barry A Vann brings a unique perspective to this age old struggle in this illuminating overview of human population shifts and their precarious relationship with climate change and geography Vann takes us on a journey along the migration routes of the earliest modern humans and tells why our ancestors chose to settle down in places that can be best described as natural utopias In the religiously oriented worldview of ancient peoples such places took on a sacred aura of divine favor Similarly destructive events such as volcanic eruptions and earthquakes were interpreted as expressions of divine wrath Vann shows how the ancient texts of the Bible and the Qur an offer glimpses of past climates that were distinctly different from the climate of our time He also discusses the rise of technology as a means of controlling the threatening features of the natural world Though technology has enabled humanity to cope with hostile climates it has also created a false sense of security Vann notes that population clusters are increasing in dangerous areas and that no technology can protect vulnerable groups from major category hurricanes tornadoes or earthquakes Finally he considers our current anxieties regarding global warming pointing out that this focus has obscured a good deal of historical and geological evidence for a return of another ice age The Forces of Nature offers a challenging perspective on the precarious balance between fragile human communities and their often threatening environments **Not Quite White** Matthew Taylor Wray,2000 The Southern Historian ,2005 **Messages of Music** Henry Brenner (O.S.B.),1923 **The Bystander** ,1917 **The North Carolina Historical Review** ,1989 Good Housekeeping ,1928 **Ice Cream Trade Journal** ,1925 **Mid-America Folklore** ,1980 **The Wild Ass of the Ozarks** Raymond Arsenault,1984 **The Southern Enigma** Walter J. Fraser,Winfred Moore,1983-09-27 This collection of fifteen essays selected from papers presented at the April 1981 Citadel Conference on the South examines three of the most powerful operating forces in southern life race class and folk culture The Southern Enigma representing the work of both established and emerging scholars reflects the most recent historical analyses of southern history *AB Bookman's Weekly* ,1996
