Dramatists Sourcebook, 1993-94 Gillian Richards, Linda MacColl, 1993-08 *The Challenge of Diversity* Willem Assies, Gemma van der Haar, 2000 Over the past several years new constitutions have been promulgated in many Latin American countries A notable feature of the new constitutional frameworks is the recognition of the multiethnic and pluricultural character of these Latin American societies and States Without question this fact reflects the new weight that indigenous movements have gained in political processes in the region The recognition of multiethnicity constitutes a significant break with the previous perspective based on homogeneity and assimilation Although this recognition of diversity is indeed important the real test and challenge shall be the full implementation of diversity through concrete policies and institutional reforms

Critical Studies in Diversity Management Literature George Gotsis, Zoe Kortezi, 2014-10-08 This book critically examines current workplace diversity management practices and explores a nuanced framework for undertaking supporting and implementing policies that equally favor all people It presents critical perspectives that not only elevate respect for differences but also provide insights into the nature and dynamics of differences in view of an inclusive and truly participative organizational environment The book first presents a brief overview of the connotations associated with workplace diversity and its effective management Next it focuses on the organizational appropriation of differences through the formation and mediation of various diversity discourses It demonstrates the particular articulations of these discourses with inequality and oppressive structures that perpetuate structural disadvantage due to existing power disparity between dominant and unprivileged group members The book then goes on to underscore the need of constructing relational and context sensitive diversity management frameworks Overall the book outlines that current business cases for diversity focus solely on instrumental goals and tangible outcomes and as a result fail to fully capture the complexity as well as the particularity of the diversity phenomenon The book underlines the necessity for a more inclusive paradigm implying a progressive problem shift in the dominant diversity research agenda from a market driven business oriented diversity management to one highly valuing affirming and respecting otherness

Dibia, 2008 This book examines the role of NGOs in development projects on the African continent It explores the challenges and the contradictions in the relationship between the NGOs the supporting agencies and the African people It is intended to provide guidance for civil society organizations and their client groups who struggle to find viable means to collaborate with NGOs the private sector and public sector This books argues that increased knowledge and cooperation is essential to the achievement of sustainable development Therefore community based organizations and public servants must consider whether they possess the necessary resources as well as the economic opportunities before they embark on any activity Sustainable development activities might not be useful or reasonable for every rural community in Africa One thing is very clear the forces of globalization or sustainable development do not respect cultural boundaries This book clearly states that for African nations to succeed they must find alternatives to centralized powers of national government In addition this book examines the transformation of several sub Saharan African nations in the twenty first century African nations must reevaluate their concept of leadership which rests on the notion that good leaders are born not made Therefore there should be a greater emphasis on the development of political and managerial skills through formal education and industrial training NGOs and civil societies could play a vital role in this transformation and therefore the future of Africa
